

▶ **PM014 – Advanced Project Management**

Advanced Project Management provides reinforcement of skills learned from the Project Management Fundamentals course and from project work. It is an opportunity for students to bring forward work examples, problems, and issues as case studies for the session. It also introduces more advanced topics in communications management, expectations management, conflict resolution, team building, quality management, and risk management.

Refresher of Knowledge Areas

Project Integration, Scope management, Time management, Cost management, Quality management, Human resource management, Communications management, Risk management, and Procurement management.
