

➤ G018 - Facilitation & Critical Thinking Skills
(2 Day)

Course Description

This 2 day workshop is for anyone who finds themselves either in too many ineffective meetings, or feels that their own facilitation, problem solving, and meeting management skills could improve. The ability to facilitate a group of people working together is fundamental to keep them focused, motivated and moving forward. In addition, you will learn key tools of critical thinking that allow you to lead teams and workshop groups towards better results.

*Ideal for
Managers,
Team Leaders
and Staff!*

Course Objectives

Upon completion of this course you will gain an understanding of:

- ✓ The Framework for Facilitations
- ✓ Critical Thinking Overview
- ✓ The 5 Stages of Thinking
- ✓ Edward de Bono's Six Thinking Hats
- ✓ Group Facilitation and Management

On the first day, students will be provided with a full arsenal of tested facilitation techniques and learn the essentials of Critical Thinking. On the second day, students will put the learning into practice by planning and facilitating a meeting based on a simulation.

Competencies supported: Leadership, Team Building, Personal Development, Communication, Decision Making and Facilitation
