Bay3000 Consulting Inc. Launches Development Series for Experienced Project Managers

Toronto (May 20, 2001) – -- Bay3000 Consulting, the leading provider of project management training and consulting services, has launched out a new series of training courses designed specifically for experienced project managers who need additional development to meet the demands of today's complex and rapidly changing environment and projects.

Highlighting our commitment to improving individual and organizational performance, these new courses address a variety of needs and competencies essential for effective project management. The new training programs include: Masters-Level Certificate in Project Management, Software Quality Management, Advanced Risk Management, PMP® Exam Preparation Intensive Course, and Designing and Deploying a Project Office.

“Our experience working with Fortune 500 companies and many others has given us a unique perspective on how project management is applied across any number of industries and applications and what areas still represent gaps in competencies for project managers,” says Stephen Paul, Bay3000 CEO. “We are very excited about our new program and confident that companies and of any size will find these courses to match the quality and practicality that Bay3000 is known for.”

Bay3000 courses are offered across Canada and the United States. For more information please visit our website at www.bay3000.com.
